

1. Identification of the substance/preparation and of the company/undertaking

Identification of the product

Product name: **Rosewood (*Aniba rosaeodora*)**

Manufacturer/supplier identification

Company: Calmer Solutions Limited®
 Hadresham
 Woolborough Lane
 Outwood
 Surrey
 RH1 5QR.
Telephone: +44 (0)1342 844658
Telefax: +44 (0)1737 306065

Emergency Telephone No: Please contact your local NHS 111

2. Composition/information on main ingredients

Main ingredients: Essential oil of rosewood

CAS No USA: 8015-77-8

EINECS No: 281-093-7

FEMA No: 2156

CoE No: 44

Concentration: 100%

3. Hazards identification

<i>Main hazards:</i>	Irritant
<i>Health effect - eyes:</i>	Irritating to eyes
<i>Health effect - skin:</i>	May be irritating to skin
<i>Health effect - ingestion:</i>	Harmful: may cause lung damage if swallowed
<i>Health effect – inhalation:</i>	May be irritating if inhaled

4. First aid measures

<i>First aid - eyes:</i>	Remove any contact lenses. Flush immediately with clean water for at least 15 minutes. OBTAIN MEDICAL ATTENTION.
<i>First aid - skin:</i>	Remove any contaminated clothing or shoes. Wash affected areas thoroughly with soap and water for at least 15 minutes. OBTAIN MEDICAL ATTENTION.
<i>First aid - ingestion:</i>	Wash out mouth with water and give water to dilute provided person is conscious. OBTAIN MEDICAL ATTENTION.
<i>First aid - inhalation:</i>	Remove from exposure. Provide fresh air. If breathing has stopped administer artificial respiration and oxygen if available. OBTAIN MEDICAL ATTENTION.

Advice to physicians - Treat symptomatically

5. Fire fighting measures

Suitable extinguishing media: Use carbon dioxide, foam or dry powder.

Unsuitable extinguishing media: Great care should be taken if using a water jet.

Special hazards of product: This product may give rise to hazardous fumes in fire.

Protective equipment for fire fighting: If fire severe wear self contained breathing apparatus.

6. Accidental release measures

Personal protection: Wear appropriate protective clothing.

Environmental precautions: Prevent the material from entering drains or water courses. Advise authorities if such spillage does occur.

Spillage: Contain spillage using earth, sand or other inert absorbent material.

7. Handling and storage

Handling: Keep container tightly closed when not in use. Use only in well ventilated area. Avoid contact with eyes, skin and clothing. Emergency showers and eye wash facilities must be readily available.

Storage: Suitable storage is stainless steel, glass and aluminium. Store in a cool, dry, dark place, ideally below 0°C.

8. Exposure controls/personal protection

As appropriate to quantity handled

Respirator: Not normally required

Hand protection: PVC or rubber gloves

Body protection: If danger of splashing wear PVC or rubber apron

Eye Protection: Chemical goggles must be worn during handling

Engineering control measures: Engineering methods to prevent or control exposure are preferred. Methods include personnel segregation, mechanical ventilators and control of process conditions.

9. **Physical and chemical properties**

Form: Mobile liquid
Colour: Colourless to pale yellow
Odour: Characteristic sweet rose/herbaceous

Boiling temperature: No data
Density (kg/m³): 0.872 - 0.887
Optical Rotation:
Vapour pressure: Not applicable
- Density: Not applicable
Solubility in water: Completely insoluble

Flash point: 75°C (Closed cup)
Explosion limits: lower: Unknown
upper: Unknown
Ignition temperature: Unknown

10. **Stability and reactivity**

Stability: Stable

Incompatibility: Avoid contact or contamination with strong acids, alkalis or oxidising agents.

Hazardous Combustion & Decomposition: Combustion will lead to oxides of carbon.

11. **Toxicological information**

Acute toxicity: No data

12. **Ecological information**

Mobility: No part of this product will dissolve rapidly in water

Bioaccumulation: Product not expected to bioaccumulate

Exoticity: No data

13. Disposal considerations

Product disposal: Dispose of in accordance with all applicable local and national regulations.

Container disposal: Labels should not be removed from containers until they have been cleaned. Contaminated containers should not be treated as household waste. Containers should be cleaned using appropriate methods and then re-used (re-cycled) or disposed of by landfill or incineration as appropriate.

14. Transport information

Description: Flammable liquids n.o.s.

UN-No.: **RID:**

Class: **Packing Group:**

15. Regulatory information

Labelling according to EC directives

R-phrases: (Risk)	R38	Irritating to skin
	R33	Danger of cumulative effects
	R52/53	Harmful to aquatic organisms, may cause long-term adverse effects in the aquatic environment

S-phrases: (Safety)	S24	Avoid contact with skin
	S37	Wear suitable gloves

Einecs Listing: All components are either Einecs listed or classified as polymers

16. Other information

The information and recommendations contained in this data sheet are believed to be accurate and represent the best information currently available to us. No warranty, guarantee or representation is made by Calmer Solutions Limited[®] as to the correctness or sufficiency of the information and recommendations in this data sheet, nor can it be assumed that all possible safety measures are contained in this data sheet or that additional measures may not be required under varying conditions and circumstances.

Revision No.: 2
Revision Date: Tuesday, 19 August 2014
Date of Print: Wednesday, 17 September 2014

Please ensure that this Safety Data Sheet is passed to the appropriate person(s) in your company, who is (are) capable of acting on the information.
